**IN THE CLAIMS:**

Please amend the claims as follows:

✓ Claims 1-10 (Canceled).

Claims 11-16 (Withdrawn, Now Canceled).

✓ Claims 17-20 (Canceled).

Please add the following new claims:

21. (New) A method of forming a compact disposable police restraint comprising the steps of:

- (a) selecting a disposable police restraint device comprising at least one rigid strap connected to a toothed socket clasp;
- (b) coiling the rigid strap of the device into a small, tight coil having at least three concentric coiled loops; and
- (c) securing the compact police restraint with a banding device capable of maintaining the coiled shape of the device.

C11  
22. (New) A disposable handcuff comprising a single tightly coiled toothed strap with a single slot, toothed socket clasp at one end thereof, further comprising a banding device holding the coil in place, made by the method of Claim 21.

23. (New) The disposable handcuff of Claim 22, wherein the rigid strap comprises Nylon.
